PORTY YEARS BEFORE THE PUBLIC. DR. C. MOLANE'S CELEBRATED LIVER PILLS,

Hepatitis or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE. Symptoms of a Diseased Liver. DAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm, The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold

or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER.

SAVING THE PEOPLE'S MONEY. The financial statements contain-

ed in the report of the Secretary of Treasury afford some interesting statistics, showing the effects of Democratic success upon the national expenditures. In 1869 the net ordinary expenditures of the Government were \$190,496.354. In 1870 Mr. Dawes, the chairman of the Ways how he feels he responds-"One-eighty and Means committee, made an elab- five." orate speech condemning the extravagant expenditure of the people's money, and appealing to his party to has a daily average of twenty prisoners be more economical. Mr. Dawes argued that the expenditures should tend toward that sum, and so accordingly the appropriations were reduced and expenditures cut down for several years thereafter, as will appear from the following
